To Whom It May Concern:

I had the good fortune of being introduced Edward J. Perkins and his company almost ten years ago. He has become an invaluable resource both personally and professionally. As the owner of an historic 1840's Dutch Colonial home in Pittsford, New York, Ed and his company have rebuilt, restored, and repaired much of my home. His honest advice and thoughtful recommendations are a refreshing change from past experiences with other contractors. I was so impressed with his knowledge and expertise I began referring him to my clients. He has done major additions, remodeled kitchens and bathrooms, and is now building custom homes. It is very rare to find someone who has the skill set that Ed does. From custom residential remodeling to building national restaurants and retail chains, Ed has seen every facet of the construction industry. As a project manager for national general contractors he understands tight timelines and the customers bottomline. He has built and project managed for jobs ranging in size from \$100,000-\$5M. As a craftsman he has a critical eye for detail and the ability to take ideas from the drawing board to project completion. His focus is always on the customer and helping achieve their objectives. Once you work with Ed and his company Integra Design Build, you will not want to work with anyone else.
